# INTRODUCING RIFF RAFF

Riff Raff pays tribute to the music of ACDC.

We deliver a high energy show, playing all the favourites with an audience interaction focus.

Our lead singer Kris James has the vocal power to pull off one of the most challenging jobs in the music industry. He does it with ease and has developed a cult following of fans that love ACDC live and loud!!

Professional, reliable and as good as the real thing. Riff Raff consists of five individuals that are passionate about their craft, AC/DC and providing a world class entertainment experience that leaves their audience begging for more. Our 4 hour show is perfect for not only ACDC enthusiasts but all live music fans.

The perfectly curated setlist ensures the audience is engaged from the first song to the last as they sing along to world wide smash hits. Expect plenty of interaction with "Angus". It's almost impossible to keep him on stage. Among the action on the dance floor is his natural habitat. Don't be surprised if one of your guests finds themselves up on stage with "Brian or Bon". He's only too happy to share vocal responsibilities with a passionate fan.

If you are looking to create an event where all attendees are having the time of their lives from start to finish, then look no further than Riff Raff.

## REPERTOIRE
